

# Batavia lettuce

*Lactuca sativa* L.

## Batavia – green

### Leny

HR: BI: 1 – 16, 19, 21, 23, Nr: 0, LMV.

Large, very heavy heads with bright, light green colour. Half-open head formation with best keeping quality on the field. Very robust against mildew. Crispy lettuce, recommended for open field and glasshouse cultivation.

### Mozart (Hi 10 534 LTL)

HR: BI: 1 – 28, Nr: 0, LMV.

Large, head-forming, light green Batavia lettuce with red leaf edge and improved resistance level. Suitable for year-round cultivation. Regional speciality.

### Grazer Krauthäuptel 2

Firm, round, good closed heads with red leaf edge. Robust against fungus infestation. Excellent sweet taste. A Styrian speciality from Austria.

## Batavia – red

### Relay

HR: BI: 1 – 28, Nr: 0.

Red Batavia with high robustness against bolting. Slight head formation in spring, otherwise open growth. Very good taste and crispy leaf structure. Reliable variety for year-round production.
