

Peas

Pisum sativum L.

Sugar pea

Pisum sativum L. convar. *axiphium*

Norli

Early, medium green, vigorous, stable, approx. 50 cm high, pods without bast fibres. Very sweet.

Norli

Wrinkled peas

Pisum sativum L. convar. *medullare*

Vada

This variety is ideal for the fresh market. The vigorous, dark green plants bear long, thick, very well-filled pods with uniform coloured kernels. The pod base is concentrated at the end of the stem, therefore picking is easy. Medium early ripening and very high yield.

Vada

Karina

Dark green wrinkled pea with a high and stable yield. Standard variety for early sowings. The plants have a high stableness and can be harvested easily, the seeds are very uniformly coloured.
