

# Savoy cabbage

*Brassica oleracea* L. convar. *capitata* (L.) Alef. var. *sabauda* L.

## Vorbote 3/Hilmar®

Very earliest selection with firm heads. Insusceptible to cold, therefore suitable for very early open field plantings. Recommended for the resale of seedlings.

## Marner Grüfewi

Very frost hardy, field savoy cabbage. Head is flat-round, dark green, nicely curled. Recommended for the resale of seedlings.

## Savoy cabbage

## Cultivation recommendation – for Northwest European climatic conditions –

Variety	Head weight [kg] (approx.)	Planting distance [cm]	Planting – Harvest (~ days)	Use	Jan.	Feb.	March	April	May	June	July	Aug.	Sept.	Oct.	Nov.	Dec.
Vorbote 3/ Hilmar®	0.5–1.0	40 x 40 50 x 35	65	F												
Marner Grüfewi	1.0–2.5	60 x 55	90–100	F
