

# Dill

*Anethum graveolens* L.

## Hi 09 300 DI

Very dark green, upright variety, suitable for pot cultivation as well as for cutting in spring and autumn. Roughly feathered.

## Delikat

Quickly growing, aromatic dill with early and large yields. Selection with many leaves for the fresh market and industry.

## Diana

A very upright and stable selection. Dark, blue green colour and very leafy. Compact growth habit, especially robust against bolting.

## Dukat

Dark green, late bolting variety which can be harvested over an extended period. Suitable for year-round cultivation.

## Hera

Very late bolting dill. Upright growth habit with much leaf mass. Suitable for the fresh market and industry.

## Dill, common

Up to 100 cm high. Fresh green leaves.

## Tetra Dill

Leafy.
