

# Red beet

Beta vulgaris L. var. conditiva Alef.

## Red Atlas, F<sub>1</sub> (Hi 09 200)

Round hybrid, robust against bolting, with smooth skin and healthy foliage. Outstanding, dark red colour on the inside. Uniform, durable variety that is suitable for fresh markets, industry and storage.

## Red Titan, F<sub>1</sub>

Very uniform, round variety, robust against bolting and of a homogeneous deep red colour. Healthy, upright foliage, robust against leaf diseases. Very high yield potential. Suitable for fresh markets and processing.

## Detroit 2/Bolivar

Late bolting, round, uniform and vigorous variety with high yield performance. Smooth skin, dark red inner colour, upright foliage. Suitable for the fresh market and industry.

## Rote Kugel 2/Hilmar®

Round variety with smooth skin and fine root. Homogeneous red colouration. Medium strong leaves, good robustness against bolting. Suitable for harvest in summer and autumn.
